

## AMPERE Stakeholder's Meeting

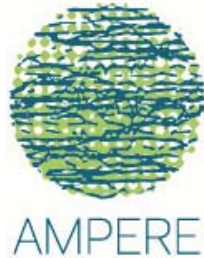

May 22<sup>nd</sup> 2012, FEEM, Island of San Giorgio Maggiore, Venice, Italy

### Background

The project AMPERE "Assessment of Climate Change Mitigation Pathways and Evaluation of the Robustness of Mitigation Cost Estimates" aims for a broad exploration of mitigation pathways and associated mitigation costs under various real world limitations, while at the same time generating a better understanding about the differences across models, and the relation to historical trends.

The objective of this stakeholders meeting is threefold. To present what the AMPERE project has already achieved. To ask stakeholders what input from the integrated assessment community are fundamental for the negotiations and the policy process. To review existing modeling assessments and highlight the main challenges in translating key results for other communities.

The meeting is perfectly timed. The AMPERE project has already achieved much and the first results can be presented. At the same time the project has still one and a half years to go, hence can benefit greatly from the input that will arise from the stakeholders meeting.

## Agenda

09:00-09:30 *Registration and Coffee*

09:30-09:45 ***Welcome and Presentation of AMPERE***

Carlo CARRARO, *Fondazione Eni Enrico Mattei and Ca' Foscari University, Venice, Italy*  
Valentina BOSETTI, *Fondazione Eni Enrico Mattei, Italy*

09:45-10:15 ***Session on "what is AMPERE"***

Chair: Valentina BOSETTI, *Fondazione Eni Enrico Mattei, Italy*  
Elmar KRIEGLER, *PIK, Germany*

10:15-11:30 ***Panel Session: "What do stakeholders need from the modeling community I"***

Chair: Keiwan RIAHI, *IIASA, Austria*

Ged DAVIS, *Forescene S. A., Switzerland and GEA Council, Austria*

Helen DONOGHUE, *DG Energy, European Commission, Belgium*

Derek EATON, *Centre for International Environmental Studies, Graduate Institute, Geneva (formerly with UNEP), Switzerland*

Richard Alexander ROEHL, *United Nations, US*

Hans TEN BERGE, *Eurelectric, Belgium*

Stefaan VERGOTE, *DG Climate, European Commission, Belgium*

*11:00-11:30 Discussion*

11:30-12:30 ***Session on "Assessments and modeling comparisons: What role for shaping international climate policy ?"***

Chair: Pantelis KAPROS, *National Technical University of Athens, Greece*

Rob DELLINK, *OECD, France*

Ottmar EDENHOFER, *IPCC and PIK, Germany*

*12:10-12:30 Discussion*

12:30-13:30 *Lunch*

13:30-15:30 ***Session on "Assessments and modeling comparisons: Challenges and the Road Ahead"***

Chair: Detlef VAN VUUREN, *Utrecht University, The Netherlands*

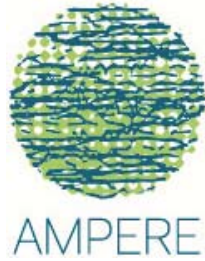

Laura COZZI, *IEA - WEO, France*

Jae EDMONDS, *PNNL, US*

Nebojsa NAKICENOVIC, *IIASA, Austria*

*15:00-15:30 Discussion*

15:30-16:00 *Coffee Break*

16:00-17:30 **Panel Session: "What do stakeholders need from the modeling community II"**

Chair: Elmar KRIEGLER, PIK, Germany

Ged DAVIS, Forescene S. A., Switzerland and GEA Council, Austria

Helen DONOGHUE, DG Energy, European Commission, Belgium

Derek EATON, Centre for International Environmental Studies, Graduate Institute, Geneva (formerly with UNEP), Switzerland

Richard Alexander ROEHL, United Nations, US

Hans TEN BERGE, Eurelectric, Belgium

Stefaan VERGOTE, DG Climate, European Commission, Belgium

16:30-17:30 Discussion and Closing Remarks

19:30 Social Dinner at La Corte Sconta Restaurant
