

Invitation to become an expert for the EU High-Level Panel on Decarbonisation

DEEDS: DialoguE on European Decarbonisation Strategies

Supporting the High-Level Panel of the European Decarbonisation Pathways Initiative

The European Commission has established a High-level Panel (HLP) of the European Decarbonisation Pathways Initiative (EDPI). The HLP will steer the implementation of the EDPI, through the provision of independent strategic advice on objectives and milestones.

Since you are an expert in the low-carbon transition, we invite you to become a member of the network of scientists and experts supporting the HLP and the EDPI. **We therefore ask you to register in our scientific experts' database using the following [link](#). Registration will take only 2 minutes.**

The specific role of experts will be to review the draft reports of the HLP, and to provide scientific input and expertise to the EDPI if and when needed, respecting each expert's availability and field of expertise.

Your participation is needed to deliver a robust and diverse scientific background for the HLP and the EDPI within the context of the DEEDS project.

We thank you in advance.
