

FEEM Working Papers (FEEM WPs)

FEEM WPs are **scientific papers** collecting the output of research in the field of **economics, energy and the environment**. They are a key tool of research diffusion, and an efficient means to foster and encourage a broader understanding of the issues addressed.

FEEM WPs collect the output of research projects, papers presented at Conferences or Workshops, networking activities, and in-house research.

They are highly international in scope, meaning that they aim at reaching a worldwide audience, and they **welcome contributions from Italian and foreign researchers** alike.

FEEM WPs are targeted to an **academic readership**.

The most touched upon topics generally hold a European or an international dimension, although FEEM also investigates issues that are relevant at the local level.

FEEM WPs currently include **four Series**:

CSI, Climate and Sustainable Innovation
ESP, Energy Scenarios and Policy
SAS, Society and Sustainability
ET, Economic Theory

Each Series has an Editor, and publication of a research work or a study in our working papers is conditional on his/her approval. This role is held by the coordinator of the research carried out in a specific field. This review procedure guarantees that each paper submitted for publication is granted a fair editorial treatment. Papers eligible for publication should add something new to the debate or at least present a topic in a new manner.

They are **published only electronically and in English**, a requisite for their circulation worldwide.

FEEM WPs are **posted on the FEEM website**.

They are also **circulated** in the Social Science Research Network (**SSRN**), the Research Papers Series in Economics (**RePEc**), the electronic bibliography by the American Economic Association (**EconLit**), the Research Series in Agricultural and Applied Economics (**AgEcon**), the Berkeley University Press (**BePress**) and the German National Library of Economics (**ZBW**).

In **2017**, the number of **downloads** of FEEM WPs from SSRN, Bepress, ZBW, AgEcon and RePEc totaled **280,917**.

The International Standard Serial Number (ISSN) assigned to the online FEEM WP Series is ISSN: 2037-1209.

Publication in the FEEM WPs does NOT prevent the same work to be published elsewhere, as **no copyright transfer** is involved.

FEEM WPs are organized by calendar year and numbered progressively.

If you wish to submit a paper for publication in the FEEM Working Paper series please send it as an e-mail attachment to: **working.papers@feem.it**

Requirements:

- Language: English
- Length: approx. 20 – 30 pages
- Short technical abstract
- Keywords
- JEL classification (<https://www.aeaweb.org/econlit/jelCodes.php?view=jel>)
